14th January 2010.

Dear Sir or Madam,

We have recently purchased two triton showers, which we have fitted by an electrician, one of the showers was malfunctioning. First of all, many thanks to the service engineer who attended the salon to put right the shower. He was very professional.

Secondly, I would like to check that we have the correct fuse for the shower in our fuse box, can you let me know if a 40a Type B MCB circuit breaker will suffice the cable is 10mm.

Yours sincerely,
